

NID Nevada Irrigation District

1036 W Main St • Grass Valley, CA 95945 • (530) 273-6185
From Auburn & Lincoln: 1-800-222-4102 FAX: 477-2646 www.nid.dst.ca.us

PUBLIC MEETING FOR THE CEMENT HILL WATER SUPPLY PROJECT

The Cement Hill Community Facilities District (CFD) will serve 241 parcels north of Nevada City, west of Highway 20 and north of Highway 49 in the community of Cement Hill. Nevada Irrigation District (NID) plans to supply this area from the E. George service area portion of its water distribution system by adding water distribution pipelines and water system improvements, including a booster pump station, a water storage tank and pressure reducing station.

Preliminary Project Schedule

Project Initiation	January – February 2008
Public Consultation	January – August 2008
Design Report	January – February 2008
Project Design	February – September 2008
Permitting	May – July 2008
Right of Way Acquisition	May – August 2008
Bid Project	September – October 2008
Construction	December 2008 – October 2009
Completion	2010

Throughout this project, NID will be soliciting input from property owners within the project and vicinity. NID will also be soliciting comments from responsible and trustee agencies and any other interested parties regarding any project issues. Additional public meetings will also be scheduled over the next several months. You will receive written meeting notices and occasional updates on the project in the mail.

Visit **www.nidcementhill.com** for project updates.

The project team will consist of NID and HydroScience Engineers. The Hydroscience Engineers team consists of Nevada City Engineering, Analytical Environmental Services, Blackburn Consulting, Bender Rosenthal and Kleinschmidt. Written comments or questions concerning this project should be directed to:
