

**NOTICE OF A PUBLIC REVIEW OF 50% DESIGN PLAN SETS
FOR THE NEVADA IRRIGATION DISTRICT'S
CEMENT HILL WATER SUPPLY PROJECT**

Nevada Irrigation District (NID) will host a public 50% design plan review to discuss the Cement Hill Water Supply Project.

Date: Thursday, September 18, 2008
Time: 2:00 p.m.-7:30 p.m.
Location: Nevada Irrigation District Offices Annex
1036 W. Main Street
Grass Valley, CA 95945-5424

NID is providing individual consultation and is requesting participation from property owners in the project vicinity, responsible and trustee agencies, and other interested parties regarding specific property design issues. The 50% design plan review will include a one-on-one review regarding potable water meter locations with each occupant and a discussion with the design engineer on the location of the pipeline and fire hydrants within the impacted roadways adjacent to individual properties. Additionally, information on the project schedule and overall project status will be available.

The project team consisting of NID, HydroScience Engineers, Nevada City Engineering, will also be available to answer other questions regarding, overall project design, surveying, and right of way acquisition.

The Cement Hill Community Financing District (CFD) will serve 241 parcels north of Nevada City, west of Highway 20 and north of Highway 49 in the community of Cement Hill. The District plans to supply this area from the E. George service area portion of its water distribution system by adding water distribution pipelines and water system improvements, including a booster pump station, a water storage tank and pressure reducing stations.
